

## Byron Elementary School Testing Plan

The GADOE has notified districts to convey the need for a written local school testing plan. Though we know that we have procedures in place at each school, many schools may not have a formally written testing plan. Below you will find an outline to help you develop the local school testing plan for the school year. Please develop the local school plan with guidance from the outline below and from your administrative team. The local school testing plan should be kept on file and accessible to any district personnel.
