

EAR, EYE AND DENTAL EXAMINATIONS WAIVER

STUDENT'S FULL NAME: _____
Last First Middle

Grade: _____ School: _____

The laws of Georgia (Georgia Code 20-2-7771) require that each child being admitted to a public school furnish a copy of a Certificate of Ear, Eye and Dental Examinations signed by a private practitioner or qualified representative of a local department of health. The form must be from the Georgia Department of Human Resources, approved by the Georgia Department of Education. To be valid, the form must be received within the one (1) year period prior to enrollment.

A student who is admitted to school without presenting an EED certificate shall present such certificate within four (4) months following entrance to school or the child will not be allowed to attend until such certificate is presented to the school.

I have read (or have had read to me) the conditions under which my child is being enrolled in school and understand that he/she will be withdrawn after four(4) months if a current Georgia Certificate of Ear, Eye and Dental Examination is not submitted.
