
“Expecting Excellence from Everyone”

Byron Middle School is a special learning place where the faculty and staff foster a climate of high expectations. Making sure students learn, achieve, and are engaged in school is our focus. This is evident when you enter the doors of Byron Middle School.

Rigorously challenging students at every level is our desire. We design our curriculum using the frameworks of the Georgia Standards of Excellence. We offer a variety of programs to assist students to reach their potential academically and socially.

We are dedicated to producing well-rounded students who are globally prepared to compete in a rapidly changing world. In order to meet this challenge, our teachers are expected to know their students' strengths, weaknesses, and learning styles. It is our goal that every student is a success story at Byron Middle School, and the recurring message is “Failure is not an Option.”

IMPROVEMENTS

The driving force of Byron Middle School is our mission statement, "To graduate college and career ready students." Every year we analyze our programs with the purpose to resolve any issues so we can execute our mission. We strive to:

- Increase parent/community leader input and participation
- Ensure our interventions are implemented with fidelity
- Increase active engagement in the classroom
- Decrease student absence
